THE ELECTRONIC HOBBYIST

Every month E-H. presents the practical side of electronics to service technicians, Industrial technicians, experimenters, hobbyists, teachers, students and others with a serious interest in electronics, both on their job and in leisure time. Articles cover simplest to the most advanced technical levels of electronics. Features include state-of-the-art reports, build-it projects, theory explanations, equipment reports, new product announcements—always stressing the practical. Areas of interest include television, High Fidelity, and electronics in general.

Sample copy available against postal stamps worth Rs. 1.50.
